

Army Techniques Publication Atp 3-01.50 Air Defense and Airspace Management (Adam) Cell Operations April 2013 (Paperback)

By United States Government Us Army

Createspace Independent Publishing Platform, United States, 2013. Paperback. Condition: New. Language: English. Brand new Book. ATP 3-01.50 provides basic tactics, techniques, and procedures (TTPs) for the tactical employment of the ADAM cell in the Stryker Brigade Combat Team (SBCT) and the support brigades, an overview of the differences in operation of the ADAM/BAE assigned to an HBCT and IBCT as one unified element, and the AMD cell at higher echelon units. ATP 3-01.50 applies to Army headquarters from brigade through corps. It applies to all Army leaders, especially trainers, educators, force designers, and doctrine developers. Army headquarters serving as a headquarters for a joint force land component or joint task force should refer to appropriate joint doctrine, policies, and regulations. ATP 3-01.50 has an introduction and four chapters. It augments, but does not replace, the planning doctrine in ADP 5-0 and the MISSION COMMAND (MC) doctrine in FM 6-0. It expands MC doctrine regarding decision making, assessment, and exercise of MC during execution. - The Introduction details the role of doctrine. It also expands upon the manual's purpose and summarizes the doctrinal changes it contains. - Chapter 1 provides an overview of the ADAM cell and details its missions and...

Reviews

This book is definitely worth acquiring. I have go through and so i am certain that i will likely to read through again again in the future. Its been printed in an exceptionally basic way in fact it is only after i finished reading this publication in which actually altered me, change the way in my opinion.
